

# Doctor/Patient Experiences

**Product No.:** RN101

## NT FACTOR ENERGY™

"I prescribe this to my patients because it provides a noticeable improvement in their energy levels. By promoting healthy mitochondrial membrane repair (and not through the use of any stimulants), most of my patients report that they feel better."

--- **Joe Burrascano MD**

"I have had quite a few patients experience persistent increases in their energy while taking NT Factor Energy™ which correlates with Garth Nicholson's experimental findings." ---**T. Ewer MD**

"I have improved energy after supplementing with NT Factor Energy™ and Energy Multi-Plex™. Especially notable are the increased maximal sudden power, endurance, and ability to recover during exercise and also for the next day events - for example in distance bicycling on hilly roads and weight lifting and aerobic exercising at the Y. These two Researched Nutritionals® products were added to a thorough treatment program for a longer-term fatigue illness from tick borne infection complex illness in the later, more recent stages of therapy. I think the products address some of what we know about mitochondrial damage in the longer-term fatigue-like syndromes and look forward to discussing this further with others interested in increased energy. I have no conflicts of interest in my dialogues regarding Researched Nutritionals' products." ---**H. Smith MD**

"Over the past ten years, I have been forced to fight for my health and at times, even my life...all because of a bite from a bug the size of a poppy-seed. I've been bed-ridden for over a year and a half, unable to walk, lost hearing in my left ear, partial sight in both eyes, my short term memory, 30 pounds from my already thin frame, and developed dozens of other horrifying symptoms. [On my doctor's--Joseph Burrascano MD---recommendation] I just recently tried Researched Nutritionals NT Factor Energy™, and for the first time in years regained my energy. I could never have imagined how much it would help in such a short period of time, especially considering nothing else has in ten years. I am forever grateful for this amazing product!" --- **B. Landau – Broadcast Producer, Reporter**

"It took about a week for me to notice any change, but I do feel like I have more normal energy--like I use to have before. I haven't talked my husband into trying it but I think it would benefit him also. It is also very definitely an excellent probiotic. Far better than any others that I have tried and it can travel with me as it needs no refrigeration. Each step in my rehabilitation has been helpful and the NT Factor Energy™ is a good step towards more energy and normal stamina." --- **J. Burghardt**

"I noticed an improvement in my energy level within just a few days of taking NT Factor Energy™. I also noticed a decrease in the way my adrenal system seems to overreact to any stimulus." --- **S. Ronn**

"I cannot overstate the positive impact of Researched Nutritionals on my health status. My internist gave me a container of the RibosEnergy™ and a naturopathic doctor told me to buy the NT Factor Energy™. After experiencing the great relief and damage control of those products, the Transfer Factor Multi-Immune™ was a logical next step. After experimenting by stopping the products, I know that I will be using them the rest of my life. The difference in my strength, stamina, and mental clarity is so great that I am now engaged successfully in online master's degree coursework as well as working as an apartment manager and becoming engaged at age 65! This quality of life would have been impossible six months ago. I am a prisoner in my own body without your products." --- **J. De Selm**
